

PLANET

THE GREEKS

Whatever the reception of the present generation, there will be among the coming generation young men and women who will continue my work and advance it, not allowing it to stagnate or become a dogma. Thus, when many thought me discouraged and even disgraced, I carried an inner smile, thinking of the kindled light.

*To my mentors: Immanuel Velikovsky  
& Cheikh Anta Diop.*

Dedicated as well to my beloved mother Carmelle-Marie (whose truly exceptional dedication to me and this project made this volume possible), my aunt Evie, my sister Kareen, to Gertha and to my dear friends David, Ajani and Copperfield — for their genuine and unwavering support, from the very beginning, down to the end, of this great adventure of mine. Even at times when no one else understood what I was doing, or even why I was doing it, their ability to pierce through the window of my soul and uncover the hidden potential has won them my eternal gratitude. Although some fundamental theological and philosophical differences may persist between us, my respect and admiration for them remains intact. May God bless the world with many more such righteous souls.
